Setup guide for GoPro Local

A guide to updating GoPro Local for version 21.x

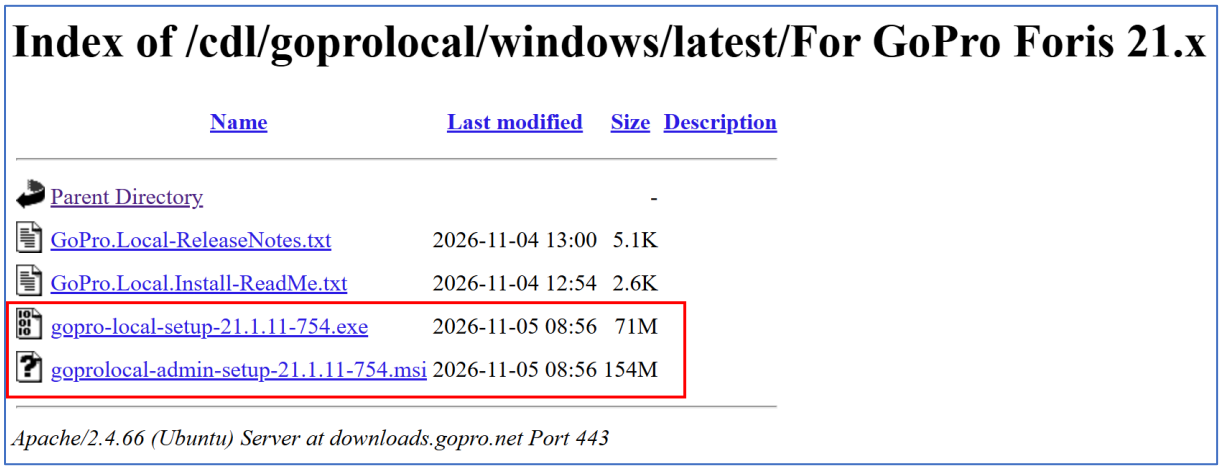

How to upgrade

- Uninstall GoPro Local from your machine
- Install the latest version of GoPro Local

Latest versions are available on the GoPro webpage: https://gopro.net/downloads

Setup for Windows

- Download the latest version of GoPro Local for Windows here: https://downloads.gopro.net/cdl/goprolocal/windows/latest/For%20GoPro%20Foris%2021.x/
- Uninstall older versions of the software from the user's machine (if it is present)
- Install the new version
  - For general user setup use the „gopro-local-setup.21.x.x.exe" package
  - For administrative setup use the „admin-setup" package
  - More detailed information can be found in the „GoPro.Local-Install-Readme.txt" file.
